

Overview

Date, time, (room)

Sun, 16. 09.	
16:00 – 18:00	Icebreaker
Mo, 17.09	
08:45 – 10:15	EPSC opening ceremony (Jupiter)
12:45 – 13:45	SMW 1.9 <i>Science Cross Talks</i> (Mars)
Tue, 18.09.	
12:45 – 13:45	SMW1.10 <i>It's all about the money</i> (Mars)
Wed, 19.09.	
12:45 – 13:45	SMW1.11 <i>Space is our mission</i> (Mars)
16:15 – 17:45	SMW1.1 <i>Science Flash</i> (Mercury)
19:30	EPSC Social Event (Registration needed!!)
Thu, 20.09.	
12:45 – 13:45	Europlanet General Assembly(Jupiter)
20:00	<i>EPEC Social Event</i> (Mommensen-Eck)
Fri, 21. 09.	
12:45 – 13:45	SM1.6 <i>Diversity and inclusiveness lunch</i> (Mercury)

All EPEC events are free of charge and no registration is required, except where explicitly mentioned.

Food and drinks are **not** provided. Please notice that also at the bar evening everybody pays his/her own consumptions.

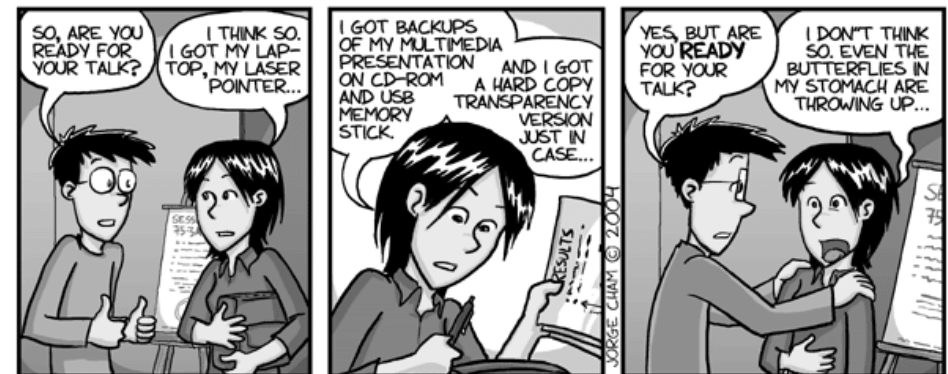

Events and short courses for young scientists at the EPSC 2018

Launched by

EPEC,

Science Cross Talks, SMW1.9

Naturally, on a conference, we mostly talk to people, who are working in the same field as we do. However, thinking outside the box is not only exciting, but can lead to new ideas and great collaboration.

This short course will give the opportunity to get to know other early career scientists, where they work and what their research is about.

It's all about the money, SMW1.10

In academic career, fund-raising is always the challenge. Sometimes even before and during the PhD, and particularly from PostDoc onwards. We will present a selection of possible funding schemes, grants and opportunities.

Speakers:

Anna Losiak – European Research Council funding

Prof. Bernard Foing – ESA Young Graduate Trainee
ESA PostDoc Fellowships

Maike Neuland – Grants and support from Women in Aerospace
Europe and Zonta International

EPEC Social Event

Just a fun evening at the bar ☺

Where? At the *MommSEN-Eck*, Mommsenstrasse 45
(Subway: Adenauerplatz or Wilmersdorfer Str.)

It would be helpful for us knowing the approximate number of participants. Therefore, if possible, please drop a short message for participation to Solmaz.Adeli@dlr.de

Space is our mission, SMW1.11

If you are getting confused sometimes by all the different spacecrafts orbiting Mars and Jupiter or if you simply want to refresh your overview of all the space missions, this is the spot for you!

This review will give a summary of operating, planned and future space missions, all by ESA, NASA and international partners.

Speakers: Ottaviano Ruesch, Prof. Michel Blanc

Science Flash, SMW1.1

The third time already that a Science Flash is taking place at EPSC! This is the chance to win one of the famous Science Flash trophies. What you have to do? Easy! Just sign up by getting in contact with Andrea Longobardo and come to the Mercury room on Wednesday afternoon. There, you become an entertainer for 180 seconds and present your research in a fun way. That's all ;-)
For more details, please have a look at the separate Science Flash flyer.

Sign up now!
